

# Tihang Rai

## Professional Summary

I am a full-stack developer with holistic knowledge of software development and design. I am also experienced in coordinating with the business unit, the development team, and the design team to bring ideas into functional applications.

## Experience

### Web Developer, Freelance.

Oct. 2021 – Present

- Built a restaurant website for a client using HTML, SASS and jQuery and deployed it to AWS Amplify
- Performed web site updates.

### Software Developer Intern, Ying. Remote, California

Mar. 2021 – May. 2021

- Used Ionic using TypeScript and custom SASS to style the Mobile UI
- Used JEST for front-end unit testing
- Used Apollo Client on the client-side to communicate with GraphQL-Prisma backend
- Debugged and improved the existing codebase.
- Researched, tested, and verified proper functioning of software patches and fixes.
- Worked in an Agile environment, attended SCRUM meetings daily and business planning meetings bi-weekly
- Consulted with managerial, engineering, and technical personnel to clarify application intent, identify problems, and suggest changes.

## Education

### New York City College of Technology, Brooklyn, NY

Bachelor of Science, Computer Science, Aug. 2021
